- Prevents toilet infection.
- It is air permeable

WHAT IS PROSTATE CANCER

Prostate cancer begins when cells in the prostate gland start to grow uncontrollably. The prostate is a gland found only in males. It makes some of the fluid that is part of semen.

The prostate is below the bladder and in front of the rectum.

The size of the prostate changes with age. In younger men, it is about the size of a walnut, but it can be much larger in older men.

Just behind the prostate are glands called seminal vesicles that make most of the fluid for semen. The urethra, which is the tube that carries urine and semen out of the body through the penis, goes through the center of the prostate.

Cervical cancer starts in the cells lining the cervix -- the lower part of the uterus (womb).

The cervix has two different parts and is covered with two different types of cells.

The part of the cervix closest to the body of the uterus is called the endocervix and is covered with glandular cells.

The part next to the vagina is the exocervix (or ectocervix) and is covered in squamous cells.

These two cell types meet at a place called the transformation zone. The exact location of the transformation zone changes as you get older and if you give birth.

Most cervical cancers begin in the cells in the transformation zone. These cells do not suddenly change into cancer. Instead, the normal cells of the cervix first gradually develop pre-cancerous changes that turn into cancer.

These changes can be detected by the Pap test and

treated to prevent cancer from developing.

The Superbklean panty liner and sanitary napkin have three properties.

FAR INFRARED...can stimulate local blood circulation, preventing gynecological diseases and relieve dysmenorrhea by raising the temperature. It can prevent and help to treat men's prostate conditions and hemorrhoids. Men from age 40 are advised to use the pantyliners.

It can absorb foot sweat and eliminate foot odour.

MAGNETIC ENERGY...magnetic force can prolong life according to the Yellow Emperor's Inner Cannon. It enhances blood circulation, the vitality cells, speeds up discharge of toxins during periods, increases bio-enzymes in the vagina and helps to raise the acidity of the secretions, making them more resistance to infection.

ANIONS...they are acclaimed as 'vitamin of life' and 'guard of the human body'. They purify the air and increase the amount of oxygen as well as moisture. Friction can prompt the strip to release anions (4000-6000/cm³) which can purify/clean the vagina and prevent the breeding of anaerobic bacteria during menses, thus eliminating odor, prevent itchiness, resist to bacteria and

8 pcs

Longrich Aplus ENERGY SHOE

The First Human Power Bank.

Miracle Wonder, Italian Handcrafted

Introduction: The foot is to us what the root is to trees. Because of its position, your foot mirrors your general health. It is termed the 'second heart' of the human body. The foot accounts for 25% of the bones in the human body. It carries one-half of the body's weight when walking. With so many nerve endings in the foot, it is one of the nerve-rich parts of the body.

How does it work? The A-plus energy shoes contain super-magnetic energy and herbal materials which synergistically stimulate reflex/acupuncture points (known as reflex zones) on the foot. This action enhances musculoskeletal activities as well as blood circulation to organs whose channels terminate on the foot. Increased blood circulation means increased oxygen supply to these organs, thereby energizing them.

Features:

1. First human power bank: Recharges, reboots and revitalizes
2. Energy materials consist of super-magnetic materials and natural plants
3. Exclusive mechanical correction technology (shapes foot arches/ rectifies body skeleton/corrects spinal column)
4. Unblocks all meridians, channels and collaterals
5. Arouses self-repair and self-healing potentials
6. Stimulates blood circulation to all organs of the body, promotes metabolism and eliminates toxins from the blood
7. Increases stamina
8. Balances and aligns all angles of the bones thereby treating joint issues

9. Based on 5 theories including reflexology, biomechanics and ergonomics

Suitable for:

- People who tire easily
- People suffering from chronic diseases and insomnia
- People on Constant medication
- People with active lifestyle who want improved performance
- Nursing mothers: promotes recovery and lactation
- People with joint issues, arthritis, rheumatism, etc.
- Stroke patients
- Cervical/lumbar spondylosis patients
- People with hormonal imbalance
- People with painful periods
- People with cardiovascular diseases
- People who are wheelchair bound
- People with varicose veins

Not suitable for:

- Pregnant women
- People with internal/cerebral/retinal haemorrhage (bleeding)
- People wearing pacemakers
- People with high fever

Expected timelines with energy shoes:

- After 1 minute: Experience instant energy
- After 10 minutes: Significant reduction in pain when pressure is applied to the disease reflex area
- After 3 days: Strength is regained and spine is strengthened
- After 90 days: All meridians and channels are unblocked, significant improvement in condition.

Caution: Keep shoes away from water or mud to avoid damage to the energy materials.

THANK YOU

Compiled by: Asaph Makgato - 0788651184
